Wilson Calls Antitrust Committee For a Talk.

Washington, Dec. 11.—President Wilson cleared the decks today for action on his antitrust program by summoning the majority members of the House Judiciary Committee to the White House for a conference.

The President has received many communications intimating undue antitrust legislation may bring about business depression and he desired a general understanding among the members who will frame the supplementary measures to the Sherman law. Today's conference developed a decided difference among the House majority as to the exact kind of new legislation necessary. One thing the President made clear was that the Sherman law itself should not be touched.

### Street Car Franchise Granted.

The ordinance granting the street railway company the right to operate for the next twenty years over the streets of the city now used for the lines, was passed by the city council Monday night. It had been given two readings the previous meeting last week.

### Two St. Louis Firms Get Capitol Subcontracts.

Jefferson City, Dec. 11.—Two St. Louis firms have landed big subcontracts in contracts in connection with the building of the new State Capitol. Christopher and Simpson have been awarded the contract for steel, which calls for 5200 tons; and Hanley and Casey the contract for the heating plant.

These two contracts will aggregate about \$800,000. The firm manufacturing the steel will commence shipments next month. Representatives of the firm say that all the steel can be delivered here by July 1, 1914, if the contractors so desire.

Contractor K. F. Gill went to Ste. Genevieve to visit the quarries there and then to Rocheport, in Boone County. It may be some time before he awards the contract for furnishing stone.
